

## Project Profile

**Client:**  
Resurrection Parrish

**Design Professional:**  
William Hirsh, AIA

**Location:**  
Wilmington, DE

**Delivery Method:**  
General Contracting

- Key Challenges:**
- To complete a renovation and addition for an existing facility within budget limitations.
  - To manage and execute construction within an occupied facility without disruption to Resurrection Parish's program schedule.

# Resurrection Parish

Bancroft worked with Resurrection's Design Team to revise the scope of the project according to their original budget without sacrificing the programmatic needs of the church. Construction was scheduled to provide access to worship and office areas as quickly as possible. Occupancy did not deter project progression nor schedule commitments.
