Project Profile

Client:

State of Delaware

Design Professional:

Tetra Tech, Inc.

Location:

Bear, DE

Delivery Method:

General Contracting

Key Challenges:

- To construct a unique Delaware State Police Troop that effectively combines an operations area, through which criminal and special investigation units can operate.
- To incorporate state-of-the-art electrical advancements including key card access capabilities, electrochromatic glass installation, security door entry systems and teleconferencing capabilities.

Delaware State Police Troop Two

Delaware State Police Troop Two is a 54,000 square foot facility which houses more than 100 employees. The largest troop facility in the state, Troop Two features 11 holding cells, reception and administrative areas, a 7,000 square foot maintenance building, two fingerprinting areas, interviewing rooms, fitness and shower areas and more.

Even though the owner added additional items to the scope as the project progressed, Bancroft's high level project planning, scheduling and teamwork allowed the project to be completed ten days ahead of schedule.
