

Client:

Kent General Hospital

Central Delaware Psychiatric

Design Professional:

Pepper and Associates

Location:

Dover, Delaware

Delivery Method:

General Contracting

Key Challenges:

- To create a home like, non-threatening environment for patients and their families, while integrating the necessary equipment to meet the needs of the patients.

Bancroft constructed a one-story 50 patient facility located on its own campus removed from the main hospital in order to give the patients a more comforting environment. The facility includes various medical offices, lounges, waiting and consultation rooms, a full service kitchen, various recreation areas and multiple nurses' stations.
