

Project Profile

Client:

Delaware Veterans Home

Delaware Veterans Home Pavilion

Design Professional:

Bernardon Haber Holloway Architects

Location:

Milford, DE

Delivery Method:

Construction Management

Key Challenges:

- To construct an outdoor pavilion for the Delaware Veterans Home without disrupting facility residents or visitors

The 5,114 square foot pavilion is outfitted with low-maintenance materials including pressure-treated lumber, Trex decking and rail caps, aluminum railings with Kynar finish, epoxy coatings on interior floors as well as metal roofing and siding. There are two restrooms, ceiling fans, and lighting which provide residents with an area for special events, meetings with family and friends, or just a quiet place to relax. In addition, there is an area for residents and their guests to fish in the stocked pond.
