

Client:

AstraZeneca Pharmaceuticals

Design Professional:

CUH2A

Location:

Wilmington, DE

Delivery Method:

Construction Management

Key Challenges:

- To construct a world-class daycare facility to serve the AstraZeneca Global Headquarters employees.
- To adhere to an accelerated schedule to meet the Owner's occupancy needs.

Child Development Center

The AstraZeneca Childcare Center is divided into four pods that serve 346 children and 82 staff members. The facility features an administrative area, family room, central activities room, art room, full-service kitchen, top-of-the-line finishes, customized casework and millwork and a state-of-the-art playground. Construction took place on an existing dump site; therefore a continuous impervious slab foundation system was required.
