

Project Profile

Client:

Capital School District

William Henry Middle School

Design Professional:

The Ray Group

Location:

Dover, DE

Delivery Method:

Construction Management

Key Challenges:

- To minimize disruption to school operations while completely renovating the facility.

This \$14MM middle school renovation included the complete replacement of HVAC and electrical systems, the conversion of an abandoned locker room facility into usable classroom space, the complete reconfiguration of the administration wing, and a new kitchen, cafeteria, library, and media center.
