

**Client:**  
Wilmington Friends School

## Wilmington Friends School

**Design Professional:**  
Specialized Consultant to WFS

**Location:**  
Wilmington, DE

**Delivery Method:**  
General Contracting

**Key Challenges:**

- To complete extensive renovations to classroom and science lab areas while adhering to a strict two-and-a-half month schedule.

The Wilmington Friends School classroom and science laboratory renovation project was executed while the students, faculty and staff were on summer break. The Bancroft Project Team updated and modernized nine existing classrooms as well as existing lab space. The renovated area received new gas and water services as well as free standing sinks. New air handlers and new piping were also installed.
